GRAVE SUSPICIONS. DETROIT, November 16th.-Frank Knoch was known to have money in the house, which he has been saying to make some payments. Searchers in the ruins found a revolver, and it is known that Knoch never wned one. These two facts lead to a suspicion that murder was committed for the take of robbery, and the building was then

Cottonwood Creek.

[Oroville Register, December 10th.]

A singular case has lately come to our notice. It is that of a young man who practically does without sleep. The name of the young man is Henry Johnson, and he has worked for the past two years for different farmers near Cottonwood creek, among whom are M. Wick and J. W. Patterson. Johnson is a stout, robust young man of 20 or 21, and except being of a restless or nervous disposition, there is restless or nervous disposition, there is nothing unusual about him. Some four nothing unusual about him. Some four years ago the young man found that he was able to do with much less sleep than other young men of his acquaintance. He could stay up all night at a dance and not feel the loss of sleep the next day, or he could sead till a late hour, and not feel sleepy the next morning. His need for sleep decreased so much that he began to number his hours of actual wakefulness during each week. For the, last three months of 1883 he was awake nineteen hours a day, while by April, 1884, he was sleeping less than four hours each night. His health was good, and so he thought little about not sleeping as much as formerly.

He came to Oroville one day and had a talk with Dr. T. W. Service about himself. The doctor saw that he was in good health, and deemed that it would be inadvisable to induce sleep by the use of narcotics. He has, however, kept close watch of the case, and taken a veriety of and taken a variety of notes to lay before the State Medical Board at its next meetthe State Medical Board at its next meeting. Young Johnson is now able to go without sleep for ten days at a time, and gets along well with only four hours of sleep in a week. He says it is of no particular benefit to him, as he gets tired the same as other men, and has to rest the same number of hours that they sleep. He generally sits by a fire in a comfortable armchair during the night, and often reads the great part of the whole night. The case is a singular one, to say the least, and deserves the attention of scientific men.

On the day in question an Italian family, consisting of a man, his wife and child, partook heartily at their noon-day meal of cream-colored toadstools, which, being white underneath, had all the appearance of mushrooms Shortly after eating all were taken violently sick. They were seized with intense pains in the region of the stomach, and hortly after lapsed into a state of intoxication. They staggered about and went through all the antics of drunken people. Dr. Lawrence was hastily summoned, and when he arrived found the family stupefied the 28th of November, were as follows:
Barrels of flour—New York, 35,043; Philadelphia, 11,859; Baltimore, 500; Boston, 28,899. Bushels wheat—New York, 89,744; gloriously drunk. Emetics were given and the man and woman relieved in a short time. The child, however, was not so fortunate, and at this writing, although somewhat improved, is not entirely recov ered. Now, that mushroom gathering is all the rage, it would be well for those who are fond of them to be on their guard. Cream-colored toadstools are easily the stomach. Nothing comes up from the taken for mushrooms. To be on the safe side one should select only those that are pink underneath. Another good test is to put a bright half-dollar in the stew-pan while cooking, and after being in a short time it will become discolored if there are any toadstools in the pan; if not discolored, you can be sure you have the simon-pure

A generous act of charity, quietly and inostentatiously performed, has just come o light. An aged couple, man and wife, iving on Third street, were poor and in ill health. They desired to go East to their children, whose slender means could not defray the necessary expenses. The old people sorrowfully watched their little store of silver diminishing, and, wearied with long, protracted sickness, were on the verge of despair. Finally a lady, whose wealth and influence consisted solely of her compassionate heart, heard of the forlorn old people and resolved to aid them. She called upon a gentleman, stated the case, and asked if he could not procure third-class tickets for the couple. A Great Conflagration That sweeps away a whole city, starts from a

flame so small that a glass of water would ex-tinguish it. In like manner, the most painful and fatal maladies of the throat and lungs ordi-narily develop from small beginnings, not difficuit of cure if promptly treated with the proper remedy. But their progress is insidious and delay may be fatal. Colds and coughs lead to Laryngitis, Asthma, Bronchitis, Pneumonia, and Consumption. The only medicine certain to cure every bronchial and pulmonary affection not absolutely incurable is

Ayer's Cherry Pectoral. During 40 years it has steadily grown in popular estimation, and is now a household reliance in many thousands of families. Parents, whose lives were preserved by AYER'S CHERRY PECTORAL when they were young, are now sav-ing the lives of their children with it. Leading physicians extol its virtues and prescribe it in their practice. Intelligent druggists everywhere report noteworthy cures effected by it, within

their personal knowledge. PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all druggists.

LOCAL INTELLIGENCE

From Poverty to Affluence. Some time since it was rumored in the land." Expectation was on tip-toe when, on Monday, it was whispered around that the estate had been administered upon, and the long-looked-for remittance had arrived. The young man was no longer looked upon as a "common, ordinary individual," but suddenly became the center of a circle of admiring friends. He was frequently asked to "take a glass of beer," and quite as often requested to "take a cigar." Mon-day evening, and Tuesday also, he was invited to go to the Clunie Opera House, and being of that class who "seldom refuse," all those little tokens of esteem and regard were accepted with an evident sense of appreciation. Monday afternoon the legatee, in as quiet and as unostentatious a manner as possible, asked the proprietor of the hotel to accompany him to the bank and identify him, so that he could draw his money. This was done and the money drawn. The parties returned to the hotel and proceeded about their business as though there was but little importance to be attached to such an ordinary business transaction. The young man made no "blow" about his suddenly-acquired wealth; in fact, said nothing at all regarding it, and those who were deeply interested took the landlord to one side to ascertain the amount. From the latter they learned that it was all true. The amount received was \$4,023 50 in gold coin. The news soon spread throughout the circle of the young man's acquaintances, and people, especially ladies, who did not know him before, now courtesied to him on the eets. Especially was this the case with long since been carried to the profit and loss account were dug up, and placed in a convenient place to be handed the young gentleman when he called to settle. The young man, however, bought him a new hat and a linen collar, and evidently meant to ignore all old scores. This was too much for an aged Teuton, who held a bill against him for \$19 50, and he called yesterday upor the young man and demanded a settlement The latter replied that he had no money. "What!" exclaimed the indignant creditor.
"Pete said you drew \$4,023 50. What have
you done with it?' "Well," answered the
young man, "Pete was right about the

linen collar and a pair of socks.' THE CITY ATTORNEY'S OPINION .- City Attorney Anderson, whose opinion had been requested as to whether Second Trustee Nielsen, during the illness of Mayor Brown, can sign warrants, etc., has written the following on the subject: "An apparent complication in the administration of our municipal affairs has arisen, on account of the protracted illness and disability of Hon. John Q. Brown, First Trustee and ex officio Mayor. Governments are intended to be perpetual, and the fact that some integral part of any government has become unable to perform its functions cannot defeat or retard the object of government. While our municipal organi law is silent upon, and has no provision for the emergency of the disability of its chief executive officer, certainly the wheels of the administration of affairs cannot be locked up on that account. The old doc-trine laid down by the English Courts, that the Mayor is an integral part of the corporation, and his presence is necessary to every valid act of the corporation, has long been exploded by our American decisions and advanced ideas of local self-government. A majority of the Board of Trustees, or legal quorum, can select one of its members to act as President pro tem., and his acts, if the reflection of the majority of the Board, are legal and binding, and i only requires that, while acting as said temporary officer, he shall attach his sigduties of which he discharges. H. B. Nielsen, being President pro tem., will affix his name as such, and the act will be

\$23 50, but he lied about the four thousand.

EDS. RECORD-UNION: Permit me to say a few words on the name for the new association about to be formed by the citizens,

labor. "Anti-Chinese," "Anti-Coolie," or succeed. This anti business has been trailed in the dust, and many respectable people have a deep-rooted prejudice against it. No matter if we cry ever so loud that "the most respectable, double-plated, A 1, good, gooder, goodest citizens are the prime movers," etc. The name Anti-Chinese, Anti-Coolie is a clean to use slang "give Anti-Coolie is a clean to use slang "give Sheriff Cunningham, of San Joaquin free street and store as slang and selection of the asylum at Stockton yesterday an insane woman named Catharine Harkins.

Dr. A. M. McCollum left his room, on I street, near Tenth, unlocked Tuesday night, and a thief entered and stole a silver watch and \$6 in money.

Sheriff Cunningham, of San Joaquin free street and stole as silver watch and the first control of the sylum at Stockton yesterday an insane woman named Catharine Harkins. Anti-Coolie, is a clean, to use slang, "give

away."
While there are many excellent men who have been connected with such organiza-tions, nevertheless, if you take a caldron, and throw into it vile whisky, rotten logic, blasphemy, race hatred, ignorance, black-mail, cowardice, falsehood, miserable selmail, cowardice, falsehood, miserable sel-fishness and violence, and you have a mixture what to many is equivalent to the name "Anti-Chinese" or "Anti-Coolie." If the citizens are in earnest, and if they wish to start a movement that will rid this country of Chinese, another name should be used. I shall take the liberty to suggest the following: "No Ballot No Admission," or N. B. N. A. League. I offer the following reasons in favor of the same: First—We will find no obstacle in having the model of the same of them red and right the same of thousands join and work with us under this name, who would object to Anti-Chinese or Anti-Coolie. Second—The Anti-Chinese or coolie name is an abomination in the

East. No matter how many good citizens or good newspapers will engage in this work, the more energy they will display under such a name the less they will accomplish. The word anti will neutralize all their efforts. The "No Ballot No Admission name will be a new one, and will receive attention, and if managed by earnest, intelligent men will not alone command re-spect at once, but will accomplish not alone

a local reform, but will effectually and forever bar out Chinese immigration.

Any sensible man knows that local patronized. "boycotting," or even driving away Chinese from any given locality, will not remedy Chinese immigration. I tried that last summer with grasshoppers. Gangs of men with willow switches drove the hoppers from trees and vine—but did they go? Yes, to another viner or tree, and in a few moments the nimble hoppers rame.

a few moments the nimble hopper came back. It would be a sheer waste of time to attempt to effect any permanent good by working or expending energy in a local town alone. There should be a Pacific Teutonic circles of an up-town hotel that one of the impecunious boarders had fallen heir to an immense estate in the "Faderjects of no nation will be permitted in this country who may not be entitled to become a citizen. As the Chinese are ineligible to citizenship, should we be able to pass such an amendment, the Chinamen will be barred out forever. This is the key to N. B. N. A.

-"No ballot; no admission."
In my judgment, this is the plan for complete success, whereas a local anti-Coolie or anti-Chinese movement will fail, because it will only drive the Chinaman from one place to another; but as soon as the noise of agitation has blown over he from one place to another; but as soon as the noise of agitation has blown over he will come back. Besides, who knows what action will be taken when the ten years of the Restriction Act is ended? May it not be discontinued? Anyone but the very shortsighted must know that if we are to have permanent relief it must come from have permanent relief it must come from Washington, and must be in the shape of a

permanent law, an organic law.

Any local pot, however violent it may boil, will soon slobber over and put the fire out. There is but one way for success—adopt a name and principle that is not distasteful to respectable people here or in the East; work all you can locally, and in addition, enlist the aid of the people and their representatives East. Thorough or-ganization, earnest work, and a good name, will sweep all obstacles aside in the short-est time possible, for while the work of local displacement goes on here, representatives of the association can use their influence to best advantage at Washington. We

can ignore neither work.

Why go to the trouble of long explanations concerning a name—that "We ain't light spring wagon, at Tenth and F streets the other fell;" that our anti-Chinese is not became frightened at a falling tree, which like the "other feller's" anti-Chinese? ballot, no admission," should be our war cry, and in a short time it will be the cry of the land, and we will have relief for middle of the road, and maintained the N. B. N. A.

Carnival on Rollers.

The first fancy-dress carnival and masquerade of the season was given last evening at the old Pavilion. The masquers who were all on rollers, numbered about one hundred, and the number of visitors was quite large. There were but few costumes that could be termed elegant, and He kept \$17 50 for a board bill, and with the \$6 I had left I bought a new hat, a few attempts at the representation of local characters. The judges were Miss C. E. Jackson, Miss Anna McCormack, Mrs. Wasserman, Arthur Manley, Horace Stevens, T. D. Porter. The prizes were awarded as follows: Most elegant female costume, first prize,

Hiscock, a member of the Committee on Rules, presented the reasons which had impelled him to agree to the report of the najority. Gentlemen who opposed the istribution feature, did so on the theory that a majority of the House could not be trusted with a chance to get at the Publi grandize power, and in illustration the gentleman from Pennsylvania (Randall) had prepared a table showing the large in crease of appropriations created by the river and harbor bill, since that measure had been taken away from the Appropria tions Committee. This was hardly in genuous, for, in point of fact, the bill had practically never been under the jurisdiction of the Appropriations Committee as it was always prepared by the Commerce Committee. He (Hiscock) was in favor of as many members of the House as possible sharing in its responsibilities sharing in its labors and its leadership. He was opposed to the building up of a system of rules that would crown any man or any set of men as kings of this legis

lative body. He went on to argue that i the appropriation bills were distributed, they could all be reported within thirty days of the organization of the committees. Hiscock spoke with much earnes ness, and at the conclusion of his speech was applauded and congratulated by his party of Indiana, with an argument in opposition to the abolition of the clause of the rule known as the "Holman amendment," which enables legislation to be engrafted on appropriation bills.

After speeches by Burroughs of Michi gan, Wellborn of Texas, and Blount of Georgia, the House, without continuing the general debate, adjourned until to-morrow. California Congressmen and the Committees.

The Malignant Ingenuity of a Fiend

Could scarcely devise tortures more excruciating than those to which the victim of rheumatism, in the inflammatory stage, is subjected. It is also dangerous on account of its tendency toward the heart and stomach. Among the benign qualities of Hostetter's Stomach Bitters, is that of expelling from the circulation those acrid im purities to which the disease is attributable Analysis proves that, in cases of rheuma-tism, the kidneys fail to eliminate these impurities from the blood. The Bitters, by stimulating these organs to activity, enables them to perform this all-important function, and, therefore, averts the disease or remedies it at the outset. The functions of digestion, and secretion of bile by the liver, are also healthfully stimulated by the Bitters, which conquers dyspepsia and liver complaint, and remedies fever and ague, bilious remittent, and other ailment of malarial birth.
